

JILL BRADLEY

Consultant

Clear Concepts Consulting Group

ABOUT

In the specialized field of employee benefits for over 30 years, Jill worked with large corporations, actuarial consultants, and third-party administrators to design and manage benefit programs - including retirement plans, health insurance, and all varieties of employee benefits.

At Clear Concepts, she applies that technical knowledge and experience across multiple functions to assist our school systems with employee meetings to support benefits enrollment, collaboration with vendor partners to accomplish client objectives, and data analysis to provide guidance on trends and developments.

She loves having such a variety of things to work on and wears many hats in the Clear Concepts office!

Jill lives in Norcross GA with her two sons and travels often to visit her daughter and grandsons in Hawaii. Other than time with family, she can almost always be found either playing or watching tennis.
