

NATALIA DING

Consultant

Clear Concepts Consulting Group

ABOUT

Natalia worked in the finance industry for 12 years, 11 of which were spent with one of the world's largest financial firms. During this time, she had opportunities to be heavily involved in her community. Through seminars, events and partnering with different chambers and non-profit organizations she helped provide access to capital, financial education and mentorship to people in need.

As Clear Concept's newest consultant, Natalia will focus primarily on helping School Systems revolutionize their Retirement Savings plans and communicate those changes to employees. She is also an invaluable resource to help us craft educational pieces in Spanish so more people can fully understand the value of their benefits as school system employees!

Although Natalia is half Brazilian and half Taiwanese, she is a native Georgia Peach - born in Atlanta and raised in Peachtree Corners. She speaks 3 languages fluently (English, Portuguese and Spanish), and is currently trying to learn Mandarin.

Natalia loves spending time with her friends and family, traveling and experiencing new cultures, and is a big-time foodie.
